- Problem Solving
- Customer Service
- Leadership
- Teamwork
- Prioritization
- Communication

”
Intentionality, impactfulness, and fun. These are the three main ingredients that, when mixed together, create the base of my design outlook. Every design choice I make is made with purpose. I want people to remember who I am, both as a designer and as a human being. And of course, you always have to remember not to take things too seriously and enjoy the process.

EXPERIENCE

Associate Manager / *Black Sheep MKE*
